ADDRESS

Yangzijiang is more confident. In the past ten years, Yangzijiang has become bigger and stronger by sticking to its core business, and we will continue to work hard to lead the shipbuilding industry and make our employees successful at the same time and also give valuable returns to society.

With your support, Yangzijiang has made the current achievements; with your encouragement, Yangzjjiang will create the future glory.

Stock Code : Exchange of Singapore BS6

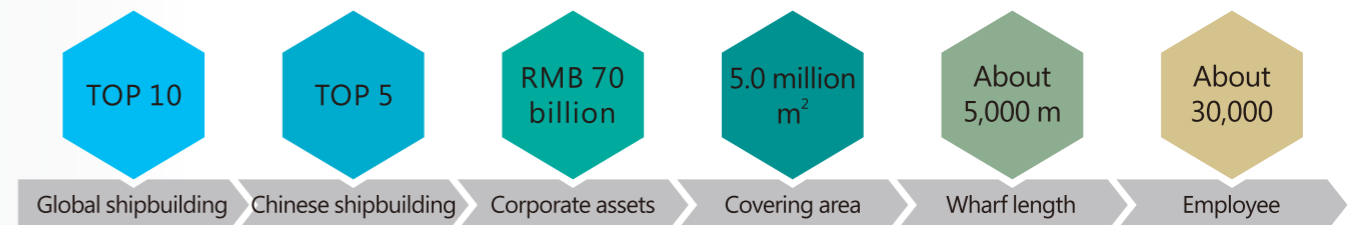

INTRODUCTION

Yangzijiang Shipbuilding Group Ltd. is a large enterprise group with shipbuilding and marine engineering as its core business, backed by ship research and development, shipping and new energy development.

The Group's subsidiaries include Jiangsu New Yangzi Shipbuilding Co., Ltd., Jiangsu Yangzi Xinfu Shipbuilding Co., Ltd. and Jiangsu Yangzi-Mitsui Shipbuilding Co., Ltd. , which are located on the golden waterway and lower reaches of the Yangtze River, nearby the cities of Jingjiang, Taixing and Taicang, in Jiangsu province, around 170km away either to Shanghai or Nanjing city.

Yangzijiang has three large dry docks and six medium to large size shipways, with annual shipbuilding capacity over 7 million deadweight tons. Main ship products include medium and large size containerships, bulk carriers, oil and chemical tankers, LNG, LEG, LPG carriers, multi-purpose vessels, and marine engineering equipment. Yangzijiang has the first-class shipbuilding technology and experience, advanced equipment and facilities as well as excellent shipbuilding workmanship. It is a high-tech enterprises in Jiangsu Province who won the Enterprise Award of the China Industry Award. Yangzijiang actively adopts modern management practices including certified Quality Management Systems, certified Environment Management Systems, and certified Energy Management Systems. Our vessel quality has been appreciated by various customers.

HISTORY

1956

Jiangyin Yangzijiang was initially established alongside the canal.

1974

Jiangyin Yangzijiang was moved alongside Yangtze River and linked to the sea.

1999

Jiangsu Yangzijiang carried out the joint-stock system reform and became the first state-owned shipyard achieving the reform in China.

2004

Jiangsu Yangzijiang built the new shipyard across Yangtze River.

2007

Yangzijiang was publicly listed in Singapore Stock Exchange.

2010

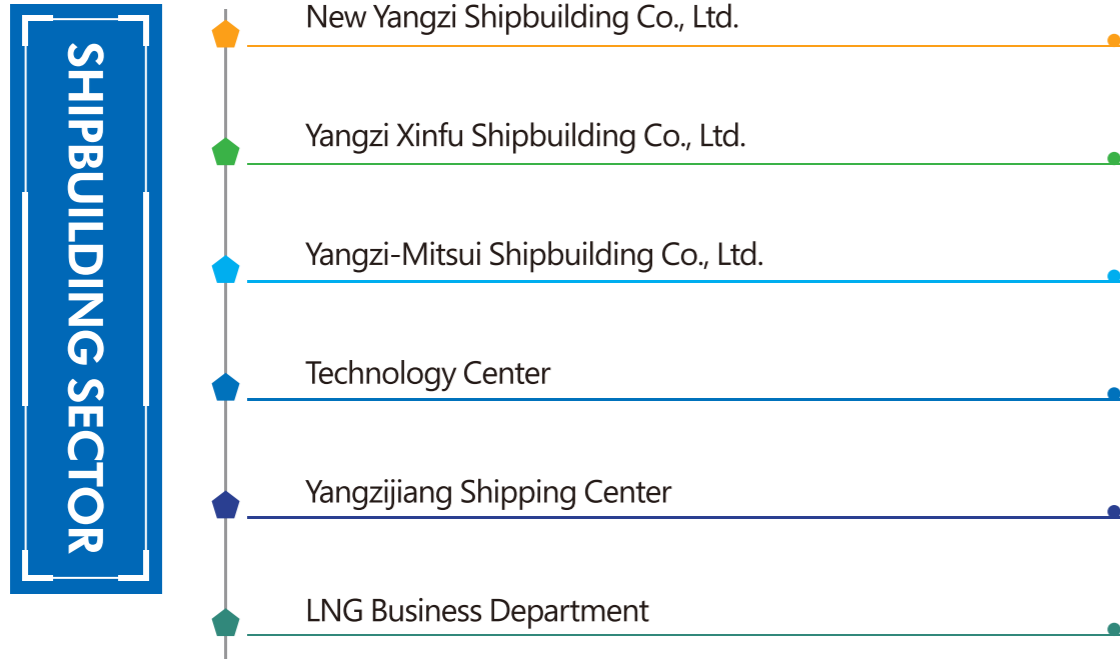

Yangzijiang was expanded by merger, acquisition and construction of new shipbuilding premises.

Nowadays

Yangzijiang spans across Yangtze River with worldwide customers and partners, and are heading to the world as a bright star of Chinese shipbuilding industry.

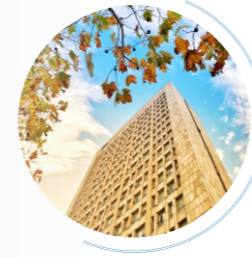

GROUP CHART

LOCATION MAP

SHIPBUILDING CAPACITY

New Yangzi Shipbuilding Co., Ltd.	
Covering area	2 million m ²
Wharf length	3,000 m
Slipway	2×100,000 Tons Slipways
Drydock	No.1 length 440m, width 96m, depth 11m No.2 length 390m, width 56m, depth 11m
Maximum lifting capacity	1,000 Tons
Annual production capacity	3 million DWT
Main products	Container vessel, Bulk carrier, Chemical tanker, Oil tanker, LNG、LEG、LPG

Yangzi-Mitsui Shipbuilding Co., Ltd.	
Covering area	1 million m ²
Wharf length	1,500 m
General assembly platform	Length 325m, width 168m; Erection Area (with 2 flat slipways)
Floating drydock	16,000DWT Length 220m , width 40m
Maximum lifting capacity	1,000 Tons
Annual production capacity	1.2 million DWT
Main products	Medium and small size of Bulk carrier, oil and chemical tankers, LNG、LEG、LPG Carriers, Jack-up drilling platform, Type-C&B liquefied gas tanks; Large steel structures

Yangzi Xinfu Shipbuilding Co., Ltd.	
Covering area	1.5 million m ²
Wharf length	1,200 m
Drydock	length 543m, width 147m, depth 13m
Maximum lifting capacity	1,000 Tons
Annual production capacity	3 million DWT
Main products	Large Bulk carrier, Large Oil tanker, LNG、LEG、LPG, 8,000TEU-24,000TEU Container vessels

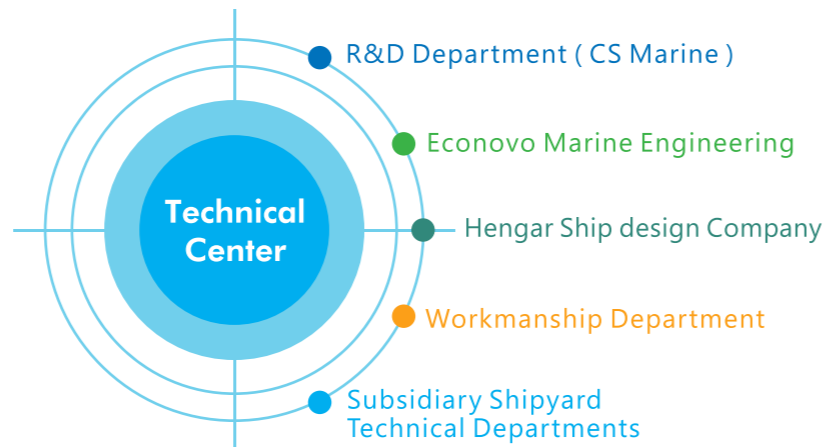

New Yangzi Shipbuilding Co., Ltd.(Changbo)	
Covering area	300,000 m ²
Wharf length	600 m
Maximum lifting capacity	300 Tons
Annual production capacity	200,000DWT
Main products	Medium and small size of container ships, Bulk carriers

RESEARCH AND DESIGN

Adhering to the strategy of talent leading development, the technical center has formed a domestic R&D leading team in ship and marine engineering research through independent cultivation and introduction of first-class professionals at home and abroad. It has established an integrated design management system including R & D, detailed design and production design.

The technical center runs a high-efficiency operation of quality management system, environmental management system, occupational health and safety management system and energy system and focus on the road of "two integration" development, and owns various of advanced design software including TRIBON, YZJ-PDM, AVEA MARINE etc.. Meanwhile, the technical center also introduce and implement ERP-YSS, eCIMS material management system and other management software, and technically reached information integration and sharing management, realized the modernization of shipbuilding design and management mode, thus effectively improved the technical management level of the enterprise.

QUALITY ASSURANCE

Yangzijiang has the first-class shipbuilding technology and experience, advanced equipment and facilities as well as excellent shipbuilding workmanship. We actively carry out modern management system including Quality Management System, Environmental Management System, Occupational Health and Safety Management System and Energy Management System.

Management System Certificate of Jiangsu New Yangzi Shipbuilding Co., Ltd.

Management System Certificate of Jiangsu Yangzi Xinfu Shipbuilding Co., Ltd.

Management System Certificate of Jiangsu Yangzi-Mitsui Shipbuilding Co., Ltd.

AFTER-SALES SERVICE

Fast, reliable and highly efficient 24/7 after-sales Service Support

With 24/7 After-sales service support, you don't need to worry that any warranty problem might impact your vessel's operation. Our after-sales service team will handle your claim immediately upon receipt of such claim and solve it high efficiently to satisfy you satisfaction. For any complicated issue, we will contact with the specialists promptly to ensure safe and smooth operation of your fleet.

MAJOR PRODUCTS
